GENERAL REGULATIONS.

4. Native regiments will go, as far as possible, on their full established strength, *minus* dépôt establishment, and men who are unfit.
5. Commanding officers will be held responsible that none but officers, men, and followers in every way fit for field service accompany the regiment.
6. Each Native regiment will be completed to its full establishment of eight British officers, including those who may be recalled from furlough, and who may be expected to join.
7. Dépôts for regiments will be formed under the orders of the Commander-in-Chief in India and of the Government of Madras. The families of British troops left in India will remain at their present stations, and will receive, in addition to subsistence allowance, three-quarter rations for the wives, and half rations for the children.
8. No chargers are to be taken by regimental or staff officers, except those sanctioned for the British mountain battery.

Equipment.

9. Followers, servants, baggage, and kit for staff and departmental officers will be according to the new field service scale, as modified by this order, with the addition of tunics. Regiments will be completed with full establishments in their respective presidencies. British troops will take with them their heavy camp equipage. Native troops will take their ordinary camp equipage. Followers,

departmental and regimental, will be provided with lascar pāls at the rate of 1 to 50 men. Entrenching tools to be taken according to the field service scale, and, in addition, 200 billhooks, or *dhaos*, per regiment and 50 per battery. *Dhaos*, *kukries*, and billhooks will be provided for 50 per cent. of the followers. No grasscutters will be taken.

10. Corps will take with them one month's supply of quartermaster's stores.
11. Bullock *puckals* (without bullocks) will be supplied to British regiments at the rate of two per company, in addition to their ordinary establishment of bhisties.
12. British troops will take camp filters with them.

Rations.

13. Free rations will be allowed to all troops and followers while on foreign service.
14. The scale of rations for British and Native troops will be as laid down in paragraph 533, Army Regulations, Vol. V. For Native troops, an allowance of 1 lb. of meat per man weekly is authorized: firewood and water will be allowed when considered necessary by the General Officer Commanding the Force.
15. *Amchur* $\frac{1}{2}$ oz. per diem per Native soldier and follower; limejuice 1 oz. and sugar 1 oz. per diem for every British soldier will be issued, in addition to ordinary rations.
16. British officers will be allowed to draw rations for themselves and servants from the Commissariat Department, payment being made as laid down in article 1677, Army Regulations, India, Vol. V.

Transport.

17. A Coolie Corps, 3,000 strong, with due proportions of transport officers, will be organized for the transport of the force as may be required.
18. The British Mountain Battery will take its mules, and the Native Mountain Batteries will be equipped with coolie transport for the guns from the Coolie Corps.
19. Transport will be charged for at the rates laid down in paragraph 2043, Army Regulations, Part V.

Hospitals.

20. Field hospitals will be provided on the following scale—

British Troops	2
Native Troops and Followers	4

at the rate of 5 per cent. on the strength of troops and 1 per cent. of followers; that is, 200 beds British troops, 300 beds Native troops, 100 beds followers.

A general hospital will be established at Thayetmyo for 5 per cent. on the strength of troops and 1 per cent. of followers.

21. The field hospitals will be provided from the Bengal Presidency, and the general hospitals from Madras.
22. The medical officers, medical subordinates, and attendants of the Army Hospital Native Corps for both field and general hospitals will be provided equally from the three presidencies.
23. All temporary servants authorized for field and general hospitals will be provided from the Madras Presidency.
24. Light camp equipage for one British and one Native field hospital only will be supplied.
25. 200 Lushai dandies, with covers and *chaguls*, and authorized proportion of bearers, &c., will be provided.

Pay and Accounts.

26. Native troops and attested followers will draw field batta.
 27. Troops not provided by the State with carriage will draw field batta from date of marching. Non-batta drawing regiments will draw field batta from date of embarkation.
 28. Public followers, except those engaged on salaries specifically laid down for the occasion, will receive an addition of 50 per cent. on pay only, in addition to free rations, while on foreign service.
- The sanctioned followers paid by the troops will receive from Government free rations and such extra pay as may be necessary to put them on a par with the public followers of a similar class.
29. The officer of the Military Accounts Department with the force will act as Field Paymaster, and have charge of the Treasure Chest.
 30. British and Native troops composing the force will draw the funds required by them from the Field Paymaster on receipts in triplicate, which should show the sums required in cash and in remittance transfer receipts respectively. They will account for the monies so received in the usual pay lists and general state forms, which will be rendered direct to the Pay Examiner of the Presidency to which the troops belong as soon after the first of each month as circumstances will admit.
 31. The pay bills of all Staff and Departmental officers will be adjusted by the Field Paymaster.
 32. Officers commanding Native regiments and detachments detailed for service may draw and distribute three months' pay in advance to their respective corps.

33. Staff and Departmental establishments and officers of British regiments may receive similar advances, not including command, contract, office, and staff allowances.

34. The family remittances of Native troops will be arranged for, as usual, by officers commanding regiments. Officers, warrant officers, and non-commissioned officers, requiring remittances to India, may remit the whole or any part of their pay to India on paying the amount to the Field Paymaster, who is authorized to grant transfer remittance receipts on any treasury in India. As an alternative arrangement, officers may leave with the Presidency Paymaster, Calcutta, Madras, or Bombay, an allotment roll, stating the amount they wish to be paid monthly, and the person to whom it should be remitted. That officer will then make the necessary remittance monthly; and he will furnish the Field Paymaster with a list of the sums thus allotted, to enable the latter to make the necessary deduction from officers' pay bills.

35. Officers of the Expeditionary Force should recover from the pay of followers serving under them the amount that each man may desire to be paid to his family in India, and send to the Controller of Military Accounts, Accounts Branch, of the Presidency concerned, in time to reach him not later than the 20th of each month, a Statement (Appendix A) of such recoveries, according to which the families will be paid under instructions to be issued by that officer. The amount thus recovered should be paid to the Field Paymaster, whose receipt should be entered on, or attached to, the Statement.

36. Every care should be taken to fill in the statements correctly from the tickets given to the men on engagement and the records in the field. Where the information is not available, owing to the loss of the tickets or any other cause, immediate application should be made to the dépôt commanding or departmental officers concerned.

Clothing.

37. Clothing and equipment on the following scales will be issued to troops and followers :—

<i>British Troops.</i>						
Jerseys	2
Putties, pair	1
Blankets (extra)	1

NOTIFICATION.—MUSEUMS AND EXHIBITIONS.

Simla, the 6th November, 1885.

No. 66 *Ex.*—1L-49—The appended forms of application for the use of Private Exhibitors, received from the Royal Commission for the Colonial and Indian Exhibition, 1886, are published for general information. The sections of the Exhibition to which the forms refer are independent of, and distinct from, the courts intended for the display of specimens of arts, manufactures and products collected under the direction of the Government of India and the several Local Governments :—

COLONIAL AND INDIAN EXHIBITION (LONDON, 1886).

Form of application for space to show goods in the Private Exhibitors' Court.

INDIAN SECTION.

The Royal Commission invite applications for space to exhibit in the Indian Section of this Exhibition from *bonâ fide* Merchants and Manufacturers having places of business in India. It must be distinctly understood that no applications from Importers or Agents can be entertained; but Indian Exhibitors may appoint London representatives as their Agents in the forthcoming Exhibition.

Allotments will be made by the Royal Commission in accordance with the space available.

Applications must be made by Indian Firms on this form, and no allotment will be finally made before such application has been received.

Applications to be made, through the Secretary to the Government of India, Revenue and Agricultural Department, or through Messrs. HENRY S. KING & Co., and their Indian Branches, to the Secretary to the Royal Commission.

TO THE SECRETARY TO THE ROYAL COMMISSION.

Please allot to me (us) the following amount of space for the exhibition of articles described opposite :—

Floor Space.....feet ×feet.

NOTE.—The private Exhibitors have a Special Gallery allotted to them, with a space twelve feet deep on either side of a central passage. This space is divided into bays or lengths of ten feet, which are available for conversion into small shops, two or three of which can be thrown into one where a larger space is required. The erection of a Screen or Façade along the front by the Exhibitor is compulsory, and can either be done by the Exhibitor, who must submit a design for approval, or will be furnished by the Commission, at the nominal cost of £1 per foot run.

Special arrangements will be made for exhibiting Carpets, which must not exceed 12 feet by 9 feet.

This form does not apply to Exhibits of Paintings, Tea, Coffee, Cocoa, Tobacco, and Cigars, for which special forms of application are prepared.

DESCRIPTION OF ARTICLES.**See Regulation No. 32 (on other side).*

In case of my application being granted (wholly or in part), I declare that I will strictly adhere to the published Regulations of the Royal Commission, as printed overleaf, which I will consider as binding, and to any further Regulations which may be issued from time to time.

REGULATIONS.

1. The Exhibition will be opened on or about the 1st May, 1886, and will remain open for a period of about six months.
2. Subject to the conditions stated in Regulations 3 and 4, the objects to be exhibited are left entirely to the discretion of the Governments participating, in so far as they illustrate the resources, products, and manufactures of the Colonies and the Indian Empire. For reasons stated elsewhere, no classification has been attempted by the Royal Commission; but each Government is invited to classify its own collection.
3. All fulminating and explosive substances and all dangerous substances are absolutely forbidden to be sent, but they may be represented by models or dummies.
4. Spirits, oils, essences, corrosive substances, and generally all substances which might spoil other articles or cause inconvenience to the public, can only be received in substantial and suitable vessels of small size.
5. There will be no charge for space.
6. Motive power and water will be supplied free of cost, *provided that notice by letter or cable is given before the 1st January, 1886.* Foundations can be laid, under the superintendence of the Secretary to the Royal Commission, upon requisition from the Executive Commissioners with their order for payment. The work will be done at the expense of the Commissions requiring it; and full particulars of the size, character, and intended position of machines should be given.
7. As the allotments of space have in most cases been already notified to the Colonial and Indian Governments, no further applications can, except under special circumstances, be entertained. Applications to exhibit from any individual or firm will be referred to the Executive Commissioners for the various Colonies and for India.
8. The Executive Commissioners appointed by their respective Governments will have the entire control of the arrangements of the goods exhibited in their respective sections, subject to the conditions stated in Regulations 9 to 16.
9. At least one main passage of not less than fifteen feet must extend throughout each Court from end to end; and, where doors or openings occur, passages of not less than ten feet in width must be provided communicating with the main central passage. The necessity of providing adequate space for allowing the proper inspection of articles exhibited need scarcely be insisted upon.
10. Signs or name-boards should be placed parallel with the main passages; that is, parallel with the frontage of the respective stands. It is suggested that they should be black with gold letters. Care should be taken to prevent any interference with the electric lighting arrangements.
11. All handbills, printed matter, &c., connected with exhibits, and intended for gratuitous distribution, should be duly authorised by the Executive Commissioners for each country, who will find the Secretary to the Royal Commission ready to cooperate with them.
12. It is specially requested that no cases or goods should exceed the height of ten feet. This rule is not intended to prevent the erection of any special trophies; but designs to scale of all trophies should, previous to their erection, be notified to the Secretary to the Royal Commission.
13. As the Exhibition Buildings are leased by the Royal Commission, no alterations affecting the structure of the buildings as regards the floor, walls, or roofing can be permitted without special application to the Secretary to the Royal Commission.
14. Executive Commissioners will be required to provide all necessary attendance for keeping the stands and exhibits in their section properly cleaned and in good order: all stands should remain uncovered during the hours the Exhibition is open to the public.
15. It is probable that the hours during which the Exhibition will remain open to the public will be from 10 A.M. to 10 P.M. on all days, except Wednesdays and Saturdays, when the hour of closing will be 11 P.M. These arrangements are, however, subject to alterations. The Exhibition will not be open on Sundays.
16. No Exhibit may be removed from the Exhibition Buildings until the close of the Exhibition without the permission of the Executive Commissioners, countersigned by the Secretary to the Royal Commission; and consequently no selling, with a view to removal prior to the close of the Exhibition, should be allowed.
17. No article exhibited may be photographed, drawn, copied, or reproduced in any manner whatsoever without the special sanction of the Executive Commissioner of the section: this sanction should be notified to the Secretary to the Royal Commission.
18. All packages containing goods intended for exhibition must have painted on them the distinctive mark *C. I. E.*, together with the name of the colony from which they are sent. They must in all cases be consigned to the Executive Commissioner of the Colony from which they are sent.
19. All goods intended for exhibition should reach the Exhibition Buildings on or before the 31st January, 1886, and, if convenient to Executive Commissioners, they can be received from 1st January, 1886: it is hoped that everything will be reported as ready for inspection at least fourteen days previous to the end of April.
20. Cases should be unpacked with the greatest possible dispatch, and when empty should be removed immediately from the buildings. The Secretary to the Royal Commission will have pleasure in recommending places of storage for empty cases; but it must be distinctly understood that all arrangements for the unpacking, removal, storage, and bringing back of cases must be made, and expenses borne, by the various Colonial and Indian Commissions.
21. All expenses connected with the installation and display of Exhibits will be defrayed by the Colonial and Indian Commissions.
22. The Royal Commission reserves to itself the right of refusing to admit any Exhibit.
23. The Royal Commission reserves to itself the sole right of publishing and selling a General Catalogue, and General Guide and Plans of the Exhibition; and for this purpose requests that a descriptive list, duly classified of the goods intended for exhibition, may be forwarded to the Secretary to the Royal Commission by the respective Commissions not later than the 1st December, 1885. Each Commission will, however, be at liberty to publish and sell through the official publishers to the Royal Commission a special Catalogue of its collection. It is hoped, for the sake of uniformity, that the size of all such publications may be the same size as that of the General Catalogue, known as Demy 8vo. (8½ in. by 5½ in.).
24. A Colonial Dining Room will be organised, under the superintendence of the Royal Commission, to which Exhibitors are invited to send, through their Executive Commissioners, Colonial preserved food and wines for consumption by Visitors. Special Regulations have been prepared for this department.
25. Arrangements will be made for the safekeeping of Wines; and an Officer will be appointed to superintend this department. Cellarage accommodation will be provided.
26. No Refreshment or Tasting Bars will be allowed, beyond those arranged for by the Royal Commission.
27. It is proposed to organise a Fruit and Vegetable Market, at which Colonial and Indian produce will be on sale. Special regulations will be framed for this section of the Exhibition.
28. It is proposed to hold an Exhibition of Living Animals from the Colonies and India. Special rules will be framed for its regulation.
29. The right to add to, alter, amend, or expunge any of these rules is reserved by the Royal Commission.
30. The Royal Commission, while taking every precaution for the protection of articles in the buildings, cannot hold itself responsible for their loss or damage, from whatever cause arising.
31. If any damage or injury shall be caused or occasioned during the Exhibition by any exhibited machine, implement, or article to any visitor or other person, or to any officer, servant, or others then and there employed by the Royal Commission of the Colonial and Indian Exhibition, 1886, then the Executive Commissioner in whose section such machinery, implement, or article may be placed shall indemnify and hold harmless the said Royal Commission from and against all actions, suits, expenses, and claims on account or in respect of any such damage or injury which may be so caused or occasioned.
32. Only objects of British East Indian manufacture will be admitted; and under no pretence whatever will Persian, Turkish, Chinese, or Japanese Art Works be permitted to be either shown or stored in the Exhibition. The Royal Commission reserves the right of ordering the removal of any objects it considers disqualified; and the Exhibitors hereby engage to remove any such Exhibits after due notice, or to permit the removal by Officers of the Commission.
33. All communications to be addressed to the Secretary to the Royal Commission, Exhibition Buildings, South Kensington, London, S.W.

* N.B.—A modification of Rule 16 as applied to the Private Exhibitors' Court has already been notified by me to Mr. Buck. It will be understood, however, that the rule cannot be cancelled, although a special exception or modification has been allowed as regards this Court.

COLONIAL AND INDIAN EXHIBITION (LONDON, 1886).

Form of application to exhibit paintings, &c.

INDIAN SECTION.

The Royal Commission is prepared to receive applications from persons desirous of exhibiting Oil-paintings, Water-colours, and Drawings of Indian Subjects by Artists and Amateurs resident in India.

The Royal Commission will defray the cost of packing and freight from Bombay to London of pictures from India, subject to the following conditions:—

- (1) All paintings and drawings will be inspected at Bombay, in order that any which may be considered unsuitable should not be sent forward.
- (2) The paintings and drawings, which must be without frames, must be sent to Messrs. King, King & Co., of Bombay, not later than the 30th of November, 1885.
- (3) Frames for pictures will be provided by Messrs. Henry S. King & Co., London: full particulars of cost, &c., can be obtained from Messrs. King, King & Co., Bombay, and Messrs. King, Hamilton & Co., Calcutta.
- (4) Artists and Amateurs now in Europe, and formerly resident in India, who desire to exhibit pictures of interest connected with India should communicate with Messrs. Henry S. King & Co., 65, Cornhill, not later than the 31st December, 1885.
- (5) It must be understood that the Royal Commission undertakes no risk, and that Exhibitors must make their own arrangements as to Insurance.
- (6) It must be distinctly stated when pictures are intended for sale; and the price in English currency must be notified on the application form. Messrs. King & Co. are authorised to make a charge of 5 per cent. on all pictures sold.

HOME DEPARTMENT.

NOTIFICATIONS—PUBLIC.

Calcutta, the 21st November 1885.

No. 1957.—With reference to Home Department Resolutions Nos. 26—963, dated 19th July 1883 (paragraph 5), and Nos. 31—1336-45, dated 23rd August 1884, it is hereby notified that the examination prescribed for the filling up of vacancies in the clerical establishments of the Secretariat Offices of the Government of India and the Departments directly attached thereto will be held at Calcutta, in the Senate House of the Calcutta University, and at Allahabad and Lahore, at the places to be appointed by the Governments of the North-Western Provinces and Oudh and the Punjab respectively, on Monday, the 18th January 1886, and following days. The hours of examination will be from 10 A.M. to 1 P.M., and from 1-30 P.M. to 4-30 P.M. daily.

The probable number of vacancies to be competed for is 15 in the Lower Division, of which 9 will be reserved for candidates who may succeed in passing at the examination to be held at Calcutta, and 6 for those who pass at the examinations to be held at Allahabad and Lahore. There will be no examination for the Upper Division.

Candidates should pay the prescribed fee (Rs 10) into the nearest Treasury, and forward the

Treasury Receipt to the Secretary to the Board of Examiners. Candidates paying their fees in Calcutta should pay them into the Bank of Bengal.

Application for permission to appear at the examination should, as directed in the Home Department Resolution Nos. 26—953-63, dated 19th July 1883, be made to the Secretary to the Board of Examiners, Calcutta, between the 1st and 15th days of December next (inclusive).

The attention of intending candidates is called to paragraphs 7 and 8 of the Resolution of the 19th July 1883, prescribing the particulars* and documents which should accompany the application for permission to appear at the examination.

* (1) Evidence that the candidate is not less than 18 and not more than 24 years of age.
(2) A certificate that the candidate is of good moral character from the head of the Institution in which he has last been educated, or (when a year or more has elapsed since his education terminated) from some respectable householder, to whom he is well known in private life, and who is himself personally known to the head of some Government Office, this last fact being certified by the countersignature of the officer in question.

INDIA OFFICE,

London, 22nd October 1885.

To—His Excellency the Right Honourable the Governor-General of India in Council.

MY LORD,—I forward herewith a copy of the report of the Deputy Master and Comptroller of the Royal Mint on the Pyx Coins of the Calcutta and Bombay Mints issued in the year 1884.

2. You will observe that it is stated that "the standard weight and fineness of the coins have been maintained with the usual approximation to accuracy," and that the proportion of gold in the silver coins has been ascertained by Parting Assay.

I have, &c.,

RANDOLPH S. CHURCHILL.

ROYAL MINT.

21st September 1885

To—The Secretary, Treasury.

SIR,—The examination of the Pyx Coins of the Indian Mints transmitted to me by direction of the Lords Commissioners of Her Majesty's Treasury on the 26th of August last being completed, I have the honour to forward herewith a report on the weight and fineness of the coins, and to return the Bullion remaining.

The coins were first weighed singly by the Mint balance, and were then handed to the Assayer of the Mint, by whom each coin has been separately assayed and reported upon.

The standard weight and fineness of the coins have been maintained with the usual approximation to accuracy.

In accordance with their Lordship's directions parting assays have been made of the silver coins of each Presidency, in order to ascertain the average proportion of gold contained in them, and the result is shown in the Report. These assays have been made in the manner detailed in the Report of the 25th of October 1869.

I have, &c.,

C. W. FREMANTLE.

MEDALS.

No. 655.—Under instructions from the Secretary of State for India, His Excellency the Governor-General in Council is pleased to direct the publication, for general information, of the following Horse Guards General Order announcing that Her Majesty the Queen Empress of India has been graciously pleased to grant a medal to the forces employed in the recent operations in the Soudan :—

Horse Guards General Order No. 97.—Medals—Soudan,—dated 1st September 1885.

I. The Queen has been graciously pleased to signify Her pleasure that a medal be granted to all Her Majesty's Forces employed in the recent operations in the Soudan in commemoration of their arduous labours in the ascent of the River Nile, and their gallantry in the operations which ensued, and also for the operations in the Eastern Soudan, in the vicinity of Suakin.

II. The medal will be similar in pattern to that already granted for service in Egypt and the Soudan.

III. Individuals already in possession of the decoration specified in para. II, will only be eligible to receive such of the clasps specified hereafter as they may be entitled to.

IV. All officers and soldiers who served south of Assouan on or before 7th March 1885 will be held to be entitled to the medal, except those who are already in possession of it.

V. All officers and soldiers who were on duty at Suakin between 26th March 1884 and 14th May 1885 will also be entitled to the medal, except those already in possession of it.

VI. Her Majesty has further approved of clasps being issued as follows :—

- (1.) A clasp inscribed "The Nile, 1884-85" to those officers and soldiers who served south of Assouan on or before 7th March 1885.
- (2.) A clasp inscribed "Abu Klea" to those officers and soldiers who took part in the action fought there on 17th January 1885, under the late Major-General Sir H. Stewart, K.C.B.
- (3.) A clasp inscribed "Kerbek" to those officers and soldiers who took part in the action fought there on the 10th February 1885, under the late Major-General W. Earle, C.B., C.S.I.
- (4.) A clasp inscribed "Suakin, 1885," to those officers and soldiers who were engaged in the operations at Suakin between the 1st March and 14th May 1885 (both days inclusive.)
- (5.) A clasp inscribed "Tofrek" to those officers and soldiers who were actually present at the action fought there on the 22nd March 1885.

VII. Rolls are to be forwarded to the Adjutant-General to the Forces without delay.

VIII. General officers will forward of themselves and their staffs. Spec will forward their applications th officers under whom they served R.E.,

IX. Officers who served as h of India, will furnish rolls of officers a under their command.

X. Officers commanding batteries of Royal Artillery, companies of Royal Engineers, regiments of Cavalry and battalions of Infantry will forward rolls of officers, warrant officers, non-commissioned officers and men who served under their command.

XI. The rolls are to be prepared in duplicate, in conformity with the form given in the appendix. They should be made out on foolscap, the writing to be lengthwise from bottom to top of each page, with a margin of an inch on each side of the fold of the sheet to admit of binding. The names of the officers and warrant officers will be entered in order of rank, those of the non-commissioned officers and men strictly in alphabetical order, without reference to troops or companies in the case of Cavalry and Infantry.

XII. The names of men who, under Articles 910 to 912, Army Regulations, Vol. I, (Royal Warrant relating to pay) have incurred forfeiture of the medal, are also to be included in the rolls, and in the eleventh column, the reasons which have rendered them ineligible are to be stated.

XIII. The addresses of men who have been discharged since the operations should also be inserted in the eleventh column.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS. ACCOUNTS, &c.

MINT.

Calcutta, the 17th December 1885.

No. 651.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

Letters from Colonel J. H. White, R.E., Mint Master, Bombay, No. 1024, dated 8th September 1885, and from Major R. V. Riddell, R.E., Mint Master, Calcutta, No. 460, dated 1st July 1885, submitting reports on the working of the Mints at Bombay and Calcutta for the year 1884-85.

RESOLUTION.

Imports and Coinage: Gold.—The net imports of gold into India in 1884-85 amounted in value to Rs. 4,67,19,365 against Rs. 5,46,25,051 in the preceding year. No gold was tendered for coinage or coined in the Bombay Mint; in Calcutta the value of the gold received for coinage was Rs. 1,47,067, which was more by Rs. 37,369 than in the previous year, and the value of gold coined Rs. 1,29,645.

The balance of gold held in the Bombay Mint which, at the beginning of 1884-85 was valued at Rs. 6,556, was at its close reduced to Rs. 5,754, the difference representing gold made into medals for private parties and public departments. Practically all the gold imported into India is withdrawn from the circulation of the world and is either hoarded or employed for purposes of ornament, a small quantity being used in the arts.

2. Imports and Coinage: Silver.—The net imports of silver into India and the coinage in each year in both the Mints from 1872-73 were—

	Net imports. Lakhs.	Coinage. Lakhs.
1872-73	72	398
1873-74	249	237
1874-75	464	490
1875-76	155	255
1876-77	720	627
1877-78	1,468	1,618
1878-79	397	721
1879-80	787	1,025
1880-81	389	425
1881-82	538	219
1882-83	748	651
1883-84	641	366
1884-85	725	579
TOTAL	7,353	7,611

The coinage therefore in these 13 years was 258 lakhs in excess of the quantity of silver imported, the difference representing the value of worn and defaced coin sent for recoinage, native uncurrent coin received as bullion, Portuguese silver coin, and native ornaments, as also the loss in melting.

3. The coinage of silver at both Mints during the year 1884-85 exceeded that of the previous year by R2,13,08,307. As in 1883-84, no silver coin was struck for the Portuguese Indian Government during the year.

4. *Total Coinage: Gold and Silver.*—The total coinage of gold and silver at each Mint is shown below separately for the last five years:—

Value—	CALCUTTA.					BOMBAY.				
	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.	1880-81.	1881-82.	1882-83.	1883-84.	1884-85.
	R	R	R	R	R	R	R	R	R	R
Gold	1,33,545	3,39,705	1,74,945	...	1,29,645
Silver	1,05,00,825	84,77,510	1,42,99,076	1,27,40,606	1,23,71,066	3,19,86,936	1,83,85,242	5,07,85,494	2,38,87,405	4,65,71,252
TOTAL	1,06,43,370	88,17,215	1,44,74,021	1,27,40,606	1,25,00,711	3,19,86,936	1,83,85,242	5,07,85,494	2,38,87,405	4,65,71,252

5. *Recoinage of old Coin.*—Defaced and uncurrent coin of the value of R3,22,351 was remitted to the Bombay Mint for recoinage, and exchanged at par at a cost of R4,244, the sum representing the deficiency in standard weight. The receipt of uncurrent coin during 1883-84 was R12,02,510. A final instalment of old Portuguese silver coin, of the intrinsic value of R17,748-9-10, was also received for recoinage, the aggregate of such remittances up to the date of the report being R19,25,687-9-10 (exclusive of copper, amounting to R1,03,194-7-3, authorised to be taken in exchange for advances of silver).

6. *Amount of Silver offered for coinage on tender on behalf of owner or of the Currency Department.*—Silver may be tendered by the owner direct on his own behalf to the Mint Master, when an assay certificate, payable twenty-one days after date, is given to the tenderer, who can claim the amount in either cash or notes from the General Treasury; or it may be tendered to the Mint by the owner on behalf of the Currency Department, when on presentation of an assay certificate a receipt for the value is given to the owner, who can then at once claim payment in notes from the Currency Department. Silver tendered on behalf of the Currency Department is not coined until a requisition for coinage is sent to the Mint by the Department. Silver not tendered on behalf of the Currency Department is coined in due course.

In 1884-85, silver to the value of R1,81,45,995 was tendered by the public for coinage in the Calcutta Mint; in 1883-84 the amount was R91,29,512. The value of the silver required by the Paper Currency Department to be coined was R1,08,55,163 against R69,94,198 in the previous year. Uncurrent coin was received from Government Treasuries for recoinage to the value of R22,07,584, of which R20,22,000 came from Allahabad alone. The amount of uncurrent coin received in 1883-84 was R40,44,329.

In the Bombay Mint, all the silver tendered during 1884-85 was on behalf of the Currency Department, which ordered coinage of bullion weighing 3,79,62,889 tolas. This quantity included country silver and ornaments weighing 18,67,751 tolas, and native coins weighing 16,37,234 tolas. The value of silver bullion in the form of native coin and ornaments received for coinage in the Bombay Mint was 1½ lakhs in 1883-84. Bullion in this form was not sent to the Calcutta Mint either in 1884-85 or in any of the three years preceding it.

7. *Copper Coinage.*—The coinage of copper amounted to R10,57,810 in 1884-85, being less than that of the previous year by R3,15,824. A small coinage of cents of the nominal value of R27,026 was executed in Calcutta for the Ceylon Government, and Tangas of the nominal value of R50,000 were coined in Bombay for the Portuguese Indian Government. The average outturn of copper coinage in Calcutta in 1884-85 was nearly 1½ per cent. better than usual, and it is satisfactory to find that this improvement is attributable partly to smaller speculation, partly perhaps to greater care in some of the manufacturing

details, and partly to the supply of copper in slabs of dimensions calculated to produce a minimum of waste.

8. The coinage in each Mint for the last five years has been as follows:—

	Calcutta. Value R	Bombay. Value R
1880-81	1,85,600	...
1881-82	39,950	50,000
1882-83	8,62,580	2,14,214
1883-84	11,54,245	2,19,389
1884-85	7,02,560	3,55,250

9. Wallaroo copper weighing 100 tons and 80 tons of English copper were obtained for coinage in the Bombay Mint during 1884-85. Uncurrent British Indian copper coin of the nominal value of R9,801, Nagpuri copper coin valued at R18,298, copper coin of native mintage exchanged for British Indian coinage amounting to R4,482, and old Portuguese copper coin of the relative representative value of R44,512-14-10 was remitted to the Bombay Mint for destruction. Nearly 300 tons of copper were received in the Calcutta Mint for coinage during the year.

10. The gain on copper coinage in both Mints for the last four years is shown below:—

	R
1881-82	1,39,707
1882-83	3,50,091
1883-84	5,60,227
1884-85	5,69,684

11. *Operative losses in Mints.*—The operative losses at Calcutta and Bombay during 1884-85 were R52,952 * and R41,518 against R89,693 and R66,387 in the preceding year.

* Inclusive of R31,708 on account of melting and recoining of Government remittances.

12. The proportion of loss in the melting and coining of silver in the two Mints per 100 tolas has been as follows for the last five years:—

	MELTING.		COINING.	
	Calcutta	Bombay.	Calcutta.	Bombay.
	Pies.	Pies.	Pies.	Pies.
1880-81	9.2	5	15.5	14
1881-82	6.7	7	9	7
1882-83	7.8	7.5	9.1	6
1883-84	7.2	9.5	8.6	6
1884-85	6.9	6	4.2	3.5

13. The rate of loss for 1884-85, especially as regards coining, compares very favourably with the rates shown for previous years,—a satisfactory result, attributable to the adoption of the process of annealing in closed tubes instead of open trays.

14. *Revenue and Expenditure.*—The total revenue and expenditure of each of the Mints from 1880-81 to 1884-85 are shown separately below:—

	REVENUE.		EXPENDITURE.	
	Calcutta.	Bombay.	Calcutta.	Bombay.
	R	R	R	R
1880-81	2,32,366	6,41,704	8,61,901	7,74,325
1881-82	2,11,295	3,83,528	8,90,413	6,45,716
1882-83	2,70,213	11,57,658	10,51,988	9,42,708
1883-84	2,23,937	5,57,634	9,75,327	7,46,422
1884-85	2,83,731	10,03,616	12,06,282	8,39,083
Total	12,21,542	37,44,140	49,85,911	39,48,254

15. The total revenue of both Mints during the last five years, amounts to R49,65,682, and the total expenditure R89,34,165, showing a loss for the period of R39,68,483, or an annual average loss of R7,93,696.

16. The expenditure on account of salaries and establishments in the two Mints was as follows:—

	CALCUTTA.		BOMBAY.	
	1883-84.	1884-85.	1883-84.	1884-85.
	R	R	R	R
Fixed Establishment	2,07,581	1,96,468	2,19,186	2,10,534
Extra „	64,960	58,647	22,252	39,363
TOTAL	2,72,541	2,55,115	2,41,438	2,58,897

17. In 1884-85 there was a decrease of R10,837 in the Calcutta Mint Master's salary owing to General Tennant's retirement, and of R5,500 in the Assay Master's salary owing to Dr. Busteed's absence on leave. There was also a decrease of R7,688 in the Operative Establishment in consequence partly of the reduced establishment retained while the Mint was under repairs, and partly of the stoppage of the manufacture of cartridge metal. In the Bombay Mint the expenditure on account of establishment was in excess of that of 1883-84 by about R17,500. Colonel White states that this excess was due mainly to establishments engaged to meet the exceptional demand for coin in April, May, and June 1884, and January, February, and March 1885.

18. The expenditure on stores in Calcutta during 1884-85 was R1,10,853 against R65,019 in the previous year, and in Bombay R1,16,719 against R63,208 in 1883-84.

19. An addition of R1,82,380 and R19,231 was made to the Capital accounts of the Mints at Calcutta and Bombay respectively during the year on account of buildings and plant. The total at debit of Capital Account to the end of 1884-85 was R76,22,558 in Calcutta, and R34,43,469 in Bombay, as detailed below:—

	Calcutta. R	Bombay. R
Land	20,09,200	12,62,200
Plant	22,97,284	6,16,456
Buildings	33,16,074	15,64,813
TOTAL	76,22,558	34,43,469

20. *Administration.*—The Governor General in Council acknowledges the efficiency with which both Mints have been controlled and worked by the officers in charge. During the year measures for shortening the process of assay without impairing its efficiency were adopted in both Mints with completely successful results. The acceleration of the processes, and the reduction of the interval between the receipt of silver in the Mints and the issue of coin, have been beneficial to the State and the public alike. The exertions made by the Assay Department to improve the touch of the coins issued from the Bombay Mint are noticed with satisfaction. In future the reports of the Assay Department will be embodied in and reviewed with the reports of the Mint Masters.

ORDER.—Ordered, that this Resolution be published in the *Gazette of India* and communicated to the Mint Masters, Calcutta and Bombay.

RESOLUTION.—One of the chief objections taken to the salt duties is that, owing to the resulting high prices, cattle are stinted in their supply of salt, while manufacturers and agriculturists are required to pay duty on salt employed in industry and agriculture. The attention of the Government of India has been given to the matter for some years in the hope that an unobjectionable method of freeing from duty salt required for the purposes above indicated might sooner or later be discovered.

No satisfactory way of effecting this object and at the same time of protecting the State from risk of fraud has as yet been found. The issue of duty-free salt on a simple guarantee that it will be used for certain purposes and for no others is, in the absence of special safeguards, out of the question, while the provision of such safeguards would entail the entertainment of establishments at inordinate expense, or the adoption of measures harassing to the section of the public concerned. The only plan which would fully meet the requirements of the case would be the denaturalisation of salt so as to render it unfit for human consumption, whilst it remained fit for use by cattle and as manure, or for industrial purposes, the salt not being easily restorable to an edible condition by any of the methods which could in ordinary circumstances be employed in India. If salt were thus prepared, it might be freely issued at little over cost price without danger to the revenue. So far, however, all attempts made to discover such a process have proved more or less unsatisfactory in their results.

2. The first experiment was made in 1876 by Mr. Wood, then Chemical Examiner to the Government of Bengal, consequent on an application from Messrs. Burn & Co., of Calcutta, for the remission of duty on salt used by them in the manufacture of glazed stoneware pipes and similar articles. Mr. Wood reported that he was unable to find out a process which fully complied with the conditions laid down, namely, the discovery of an inexpensive method whereby salt may be rendered unfit for human consumption and can be again rendered edible only by a process the cost of which would equal or exceed the duty levied on it. But he suggested an alternative method, namely, the admixture of salt with coal tar, the tarred salt being issued to manufacturers of glazed stoneware free of duty, upon a personal guarantee for its use exclusively in manufacture. This method was adopted and is still practised, the salt being issued subject to certain special rules framed by the Government of Bengal. The arrangement works satisfactorily on the limited scale on which it has been tried, but constant supervision is required, and tarred salt cannot be used except in pottery manufacture.

3. In 1877 Dr. H. Warth was directed to make experiments after the German method with some of the refuse salt of the Punjab mines. A mixture of salt with colocynth (*Citrullus colocynthis*), and another with lignite, oil-cake, and cotton seed were tried, but the result in both cases was unsatisfactory, pure salt being easily recovered from the mixtures, and the experiments were discontinued. On application to the Secretary of State for information showing precisely the process of denaturalisation employed in Germany it appeared that salt was issued for agricultural purposes in two forms, (1) a coarse powder consisting of a mixture of oxide of iron and vermouth powder (*Artēmisia absinthium*), and (2) blocks for beasts to lick, the salt being mixed with oxide of iron and charcoal powder. Salt for manure was mixed with charcoal dust, ashes, lamp-black, or ordinary soot, in different proportions. These

mixtures, though effective in Germany, would not be so in this country where the salt duty is much heavier, and cheaper means of restoring the salt exist.

4. In 1879 the Government of Madras forwarded an application from Mr. Barter for permission to use duty-free salt in the manufacture of manure. The Commissioner of Salt Revenue, Madras, referred to the various processes of medicating salt used in France, and recommended compliance with Mr. Barter's application, provided the salt was first mixed with poudrette in accordance with the French method. The Board supported the recommendation of the Salt Commissioner, but the Government of India considered that the issue of a mixture of the kind to the people of this country was obviously objectionable as leading to serious misapprehension of motives. The proposal was therefore negatived.

5. The European methods of medicating salt having been found unsuitable, and the experiments made in Bengal and the Punjab having proved unsuccessful, the Government of India, in its Resolution of the 22nd August 1883, cited in the preamble, invited Local Governments and private individuals to make careful and systematic experiments for the discovery of a satisfactory process. Various attempts have been made in compliance with these instructions, but none of them can be considered completely satisfactory. The following is a brief summary of the suggestions received, and of the causes which render them ineffectual.

(1) *Lieutenant J. F. Pogson, Dehra Dun*.—A mixture of salt with slaked lime or chunam, carbonate of potash, powdered charcoal, rice flour, and water. Experiment showed that the preparation was useless, pure salt being recovered from the mixture by solution in water and subsequent evaporation. A sample of cattle salt prepared by Lieutenant Pogson, of which he declined to name the ingredients, was tested by the Chemical Examiner, Punjab, and also found useless.

(2) *Captain Davies, Barrack Master, Umballa*, suggested a mixture of salt with green succulent grass in the proportion of 40 or more parts of the latter to 1 of the former. Edible salt can be easily recovered from the mixture.

(3) *Mr. C. J. Simons, Mahmarra Tea Estate, Assam*.—A mixture of edible salt with sulphate of soda (*khari nimak*) in the proportion of 4 to 1, and of *Sulphur vivum*, black salt, and mustard oil-cake in small proportions. The mixture was examined by the Chemical Examiner, North-Western Provinces and Oudh, who reported that edible salt could be recovered from it by an easy process.

(4) *Dr. Warth*.—A mixture of salt with *gur*, bran, oil-cake, and grass. Experiments made by the Superintendent, Experimental Farm, North-Western Provinces and Oudh, failed, edible salt being easily recoverable from the mixture.

(5) *Surgeon-Major J. B. Gaffney, Civil Surgeon, Seoni, Central Provinces*.—A mixture of salt with "mahwa" refuse from distilleries. Experiments made in accordance with this suggestion by the Assistant Commissioner of the Sambhar Lake Division failed, salt being separated from the mixture by the simple process of recrystallisation.

(6) *Mr. H. Murray, of Lahore*.—Mr. Murray suggested four alternative methods of preparing cattle fodder—(1) a mixture of hay, wheat, bran, grass, fodder, and gram with caramel, molasses (mixed with green fodder juice), and salt; (2) a mixture of bran, salt, and caramel; (3) a mixture of hay, bran, and various descriptions of fodder with cotton, mustard seed, caramel, molasses, and salt; (4) a mixture of wheat meal, gram, caramel, oil-cake, and salt. Every facility was afforded to Mr. Murray at the Mayo Salt mines, and salt supplied to him free of duty. He made a small quantity only of fodder by way of experiment, but owing to the cost of conveyance by rail of an article so bulky as this preparation it was found impossible to place the fodder in the market at a price which would be remunerative and attract purchasers. The experiments have been abandoned.

(7) *Mr. R. Romanis, D.Sc., Chemical Examiner, British Burma*.—A mixture of salt with sulphide of antimony, sulphur, and charcoal, or lime freshly slaked. This method fulfils the conditions laid down by the Government of India, but competent authorities, who were consulted as to its efficacy, report that fatal results may follow from continued consumption of a mixture which contains antimony, a cumulative poison.

6. Various experiments were made by district medical officers in Bengal, but none proved successful, the difficulty being to prevent the easy restoration of pure salt from the mixture. The Chemical Examiner to the Government of Bengal is of opinion that a solution of the problem cannot be expected under the conditions laid down, which in their entirety are impracticable. This view is concurred in by the Chemical Examiner to the Government of the Punjab, and in Madras and Bombay it has been held that the problem is insoluble.

7. As already stated in the Resolution of 22nd August 1883, the Government of India still hopes that a process may be discovered which, if not completely satisfying all the conditions hitherto prescribed, may yet be sufficient for practical purposes. In this view, the Governor General in Council is prepared to grant a reward not exceeding Rs. 5,000 to the inventor or discoverer of a process which will satisfy the main conditions, namely, (a) that the cost of the process must be moderate, not exceeding about 4 annas a maund, and (b) the preparation must be such that edible salt cannot be easily extracted from it by any of the ordinary processes in use amongst native salt-workers. If several good processes are suggested, the highest reward will be given to the inventor of the process which may appear to Government to be the most satisfactory in all respects, and a smaller proportionate reward will be granted for the next best process.

8. The details of the attempts hitherto made to discover a suitable method of denaturalisation have been printed in the form of a pamphlet, copy of which may be obtained on application by persons who desire to make experiments.

ORDERED, that the foregoing Resolution be communicated to the several Local Governments and Administrations, with a request that publicity may be given to the offer made by the Government of India.

Also, that copies be forwarded to the Commissioner of Northern India Salt Revenue, and to the Revenue and Agricultural Department for information.

Also, that it be published in the *Gazette of India*.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

Insupersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—
